PROFESSIONAL SUMMARY

Security engineer with two years at Microsoft across endpoint security incident response and security and compliance engineering inside GCC and GCC High tenants. Founding engineer on Microsoft's Security and Compliance practice, where I built investigation playbooks and escalation workflows as the team scaled from 3 to 20+ engineers.

WORK EXPERIENCE

Grali Sep 2025 - Present

Founder · Bellevue, WA

- Building an AI-powered tool that generates prescriptive, phase-based security implementation roadmaps from an organization's existing security stack; full-stack development across backend API, AI integration, and frontend interface.

Microsoft (via LTIMindtree) Sep 2024 - Aug 2025

Security and Compliance Engineer · Bellevue, WA

- Founding engineer on the Security and Compliance practice; built team processes, escalation paths, and playbooks from scratch as the team grew from 3 to 20+ engineers
- SME for Microsoft Defender for Office 365 and Microsoft Purview; primary escalation contact for complex MDO and Purview cases across GCC and GCC High tenants
- Investigated phishing, malware, and BEC incidents daily using Threat Explorer, Email entity page, Message Trace, and Advanced Hunting across EmailEvents, EmailAttachmentInfo, UrlClickEvents, and CloudAppEvents
- Configured anti-phishing policies, Safe Attachments, Safe Links, DMARC/DKIM/SPF, and quarantine policies across enterprise M365 tenants; configured DLP, sensitivity labels, retention, litigation hold, and insider risk in Purview for FedRAMP, NIST, HIPAA, and PCI-DSS

Microsoft (via LTIMindtree) Dec 2023 - Sep 2024

Endpoint Security Engineer · Bellevue, WA

- Investigated active endpoint incidents alongside customers: collected device logs from Event Viewer, captured network traces, triaged suspicious files, and walked customers through alert triggers, detonation results, and verdicts
- Ran Live Response sessions to collect forensic packages and execute remediation actions in real time; created and managed custom IoC indicators (file hash, IP, URL, domain, certificate) for active threat containment
- Wrote KQL queries in Defender Advanced Hunting to sweep for IOCs across large device populations; reduced average investigation time by approximately 20%
- Deployed all 19 ASR rules via Intune, Group Policy, and PowerShell in Block, Audit, and Warn modes; administered Intune endpoint security policies covering Antivirus, Firewall, disk encryption, and Conditional Access with MDE risk signals

Bellevue College Dec 2018 - Dec 2023

IT Customer Support · Bellevue, WA

- Managed macOS devices via Jamf Pro and deployed Windows workstations campus-wide via SCCM/MECM; used PowerShell for endpoint automation and patch management
- Supported Active Directory including account management, Group Policy, NTFS permissions, MFA, DNS, and DHCP; supervised 20+ student technicians and administered SaaS platforms for 15,000+ users

EDUCATION

BS, Electrical and Computer Engineering - [University of Washington, Seattle, WA](#) Dec 2021

CERTIFICATIONS

AZ-900: Azure Fundamentals - Microsoft	Earned
SC-200: Microsoft Security Operations Analyst	In Progress
CompTIA Security+ SY0-701	In Progress

SKILLS

Endpoint: Defender for Endpoint, Live Response, IoC Indicators, ASR Rules, Defender TVM, Microsoft Intune, Jamf Pro, SCCM/MECM, CIS Baselines
Email & Identity: Defender for Office 365, Threat Explorer, ZAP, AIR, DMARC/DKIM/SPF, Entra ID, Conditional Access, MFA, RBAC, Zero Trust
Data Protection & Compliance: Purview DLP, Sensitivity Labels, Retention, Litigation Hold, Insider Risk, eDiscovery, Compliance Manager, FedRAMP, NIST 800-53, HIPAA, PCI-DSS
Operations & Scripting: KQL / Advanced Hunting, Incident Response, Threat Hunting, Microsoft Sentinel, Active Directory, Group Policy, PowerShell, Python
